

10th Anniversary of Antibiotics—Recent Advances in Plant-Derived Antibiotics

Guest Editors:

Prof. Dr. William N. Setzer

Department of Chemistry,
University of Alabama in
Huntsville, Huntsville, AL 35899,
USA

Dr. Noura Dosoky

Research Scientist IV, doTERRA
International, Pleasant Grove, UT
84062, USA

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editors

The *Antibiotics* journal was funded in 2012. During the past ten years, *Antibiotics* has launched more than 100 Special Issues and published more than 1500 papers. The journal covers all aspects of antibiotic discovery, use, and preservation. The year 2021 marks the 10th anniversary of *Antibiotics*. We are thus excited to celebrate the *Antibiotics* journal's 10th anniversary with a Special issue.

This Special Issue welcomes both research and review papers in the most recent and innovative developments of plant-derived antibiotics. We hope the Special Issue can further encourage and promote the scientific contributions of researchers in this field. If your paper is well prepared and approved for publication, you may be eligible for discounts for your publication.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciples are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
