

Special Issue

Antibiotic Resistance: The Role of Aquatic Environments

Message from the Guest Editors

As the World AMR Awareness Week (18th–24th November) approaches, we are excited to extend a special invitation to scholars actively contributing to the field of antimicrobial resistance.

We would be honored to feature your research in our special issue as part of the celebration of the upcoming WAAW.

If you are interested in submitting a paper, please feel free to contact us or Ms. Thalia Zhang (thalia.zhang@mdpi.com), the Section Managing Editor of Antibiotics.

Guest Editors

Prof. Dr. Jason W. Marion

Environmental Health Science and Sustainability Program, Eastern Kentucky University, Richmond, KY 40475, USA

Dr. Matthew D. Stocker

USDA-ARS Environmental Microbial and Food Safety Laboratory, 10300 Baltimore Ave., Bldg. 303, Beltsville, MD 20705, USA

Deadline for manuscript submissions

15 October 2026

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon
School of Chemistry and Molecular Bioscience, University of
Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
