Special Issue

Antimicrobial Stewardship and Infection Prevention in Intensive Care Unit

Message from the Guest Editors

As World AMR Awareness Week (18–24 November 2025) approaches, we are delighted to extend a special invitation to scholars working in the field of antimicrobial resistance.

We would be honored to feature your research in our Special Issue as part of the upcoming WAAW celebration. Your expertise and insights are highly valued and will contribute to shaping the global dialogue on antimicrobial stewardship.

If you are interested in contributing, please let us know. For any questions, feel free to contact the Editorial Office (Ms. Lyric Ren) at lyric.ren@mdpi.com.

Your expertise can make a significant difference, helping to shape our understanding and guide our efforts to improve patient outcomes and safety in the ICU.

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery. use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciples are all key. Antibiotics is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon

School of Chemistry and Molecular Bioscience, University of Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
