

Special Issue

Antibiotics Use and Antimicrobial Stewardship in Remote Areas—an One Health Perspective, 2nd Edition

Message from the Guest Editor

The first edition of the Special Issue “Antibiotics Use and Antimicrobial Stewardship in Remote Areas—an One Health Perspective” was published in 2020. It is a successful collection comprising 13 excellent papers and has encouraged us to open a second edition on the same topic. As a continuation of the first Special Issue, this second edition aims to collect manuscript submissions that further our understanding of antimicrobial consumption and stewardship initiatives in remote places, highlighting clinical, cultural and geographical difficulties and peculiarities. Submissions taking into account the One Health perspective are especially encouraged.

Guest Editor

Prof. Dr. Albert Figueras

1. Consultant (Medicines Use, Safety and Policies), Barcelona, Spain
2. Former Professor at Universitat Autònoma de Barcelona, Barcelona, Spain

Deadline for manuscript submissions

closed (30 April 2025)

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon
School of Chemistry and Molecular Bioscience, University of
Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
