

Special Issue

Antibiotic-Resistant *Enterobacteriaceae*

Message from the Guest Editors

This Special Issue focuses on antimicrobial resistance in *Enterobacteriaceae* and will consist of 10–15 manuscripts, which may include original research, review articles, case series, or letters to the editor. We are interested in both qualitative and quantitative research in the following areas:

- Antibiotic resistance and molecular mechanisms;
- Emerging pathogens and active surveillance;
- The development of new antimicrobials;
- Antimicrobial stewardship initiatives and patient outcomes;
- Infection prevention and control programs.

Keywords

- *Enterobacteriaceae*
- drug resistance
- antibiotics
- surveillance
- emerging pathogens
- antimicrobial stewardship

Guest Editors

Dr. Jari Intra

Dr. Aurora Piazza

Dr. Davide Carcione

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon
School of Chemistry and Molecular Bioscience, University of
Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
