

Special Issue

What's New: Natural and Synthetic Antibacterials and/or Agents with Multiple Activities? 2nd Volume

Message from the Guest Editor

We have published one successful Special Issue “What’s New: Natural and Synthetic Antibacterials and/or Agents with Multiple Activities?” This result encouraged us to open a second volume on the same topic. As a continuation of the Special Issues published in 2021, this second volume will welcome the study and biological evaluation of new natural and synthetic compounds, showing antibacterial activity along with other activities, such as antitumoral, antiviral, anti-inflammatory and so on.

Guest Editor

Prof. Dr. Maria Stefania Sinicropi

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon
School of Chemistry and Molecular Bioscience, University of
Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
