

Special Issue

Antimicrobial Agents in Oral Diseases: Prophylaxis and Therapy between New and Old Molecules, 2nd Edition

Message from the Guest Editor

This Special Issue carries on from the success of its predecessor, "Antimicrobial Agents in Oral Diseases: Prophylaxis and Therapy between New and Old Molecules", available at https://www.mdpi.com/journal/antibiotics/special_issue/s/antimicrobial_agents_oral. As a continuation of this 2023 Special Issue, this edition will publish papers focusing on the management of oral diseases with a particular focus on the activity of old and new antiseptics and antibiotics, the use of these medications in the dental setting, and the education of dental professionals regarding accurate prescription.

About the Journal

Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

Editor-in-Chief

Prof. Dr. Nicholas Dixon
School of Chemistry and Molecular Bioscience, University of
Wollongong, Wollongong, NSW 2522, Australia

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
