

## Special Issue

# Alternatives to Antibiotics: Bacteriocins and Antimicrobial Peptides, 2nd Edition

### Message from the Guest Editor

The success of our Special Issue "Alternatives to Antibiotics: Bacteriocins and Antimicrobial Peptides" encouraged us to open a second volume on the same topic. As a continuation of the Special Issue published in 2021, this second volume will welcome manuscript submissions on all aspects of antibacterial peptides and bacteriocins, both old and new, and on how they can contribute to further benefiting human and veterinary health. Original research manuscripts, short communications, and reviews are welcomed.

### Guest Editor

Dr. João Vilares Neves

Instituto de Investigação e Inovação em Saúde (i3S), Universidade do Porto, Porto, Portugal

### Deadline for manuscript submissions

closed (30 June 2023)

## About the Journal

### Message from the Editor-in-Chief

There are very few fields that attract as much attention as scientific endeavor related to antibiotic discovery, use and preservation. The public, patients, scientists, clinicians, policy-makers, NGOs, governments, and supra-governmental organizations are all focusing intensively on it: all are concerned that we use our existing agents more effectively, and develop and evaluate new interventions in time to face emerging challenges for the benefit of present and future generations. We need every discipline to contribute and collaborate: molecular, microbiological, clinical, epidemiological, geographic, economic, social scientific and policy disciplines are all key. *Antibiotics* is a nimble, inclusive and rigorous indexed journal as an enabling platform for all who can contribute to solving the greatest broad concerns of the modern world.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Infectious Diseases) / CiteScore - Q1 (General Pharmacology, Toxicology and Pharmaceutics)
