Message from the Guest Editor

Professor Isabel C.F.R. Ferreira has worked on Chemistry of Natural Products, specifically the extraction, purification and stabilization of myco and phytochemicals; development of natural ingredients, nutraceuticals and innovative functional food formulations. She has developed a number of methodologies for extraction, refinement and chemical characterization of bioactive molecules from mushrooms and plants, as also has improved analytical methodologies of different biomolecules.

This Special Issue “Antioxidants Properties of Natural Products: A Themed Issue in Honor of Professor Isabel C.F.R. Ferreira” invites researchers to contribute with original research or review articles related to natural products and/or any research subject connected with Prof. Isabel’s research interests.

Naples, Italy

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Clinical Biochemistry)
