Message from the Guest Editors

The Special Issue "Application of Antioxidants and Bioactive Compounds in Food from Agriculture to Health Benefits, 2nd Edition" is a continuation of the fruitful first edition. It will continue to collect scientific papers dealing with various complementary studies needed to enhance the potential functionalities of bioactive compounds found in unexploited agri-food sources and their by-products which may be beneficial to human health. Features related to global waste reduction, considering both food and packaging, will be also covered by this Special Issue.

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [PubAg](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Clinical Biochemistry)
