

Special Issue

Green Extraction of Natural Products (GENP 2022)

Message from the Guest Editors

The International Congress on Green Extraction of Natural Products (GENP2022) will focus on the valorization of agricultural and food waste, bioprocess resources and innovative conversion technologies, perfume, cosmetics, pharmaceuticals, food, biofuels, chemicals and energy sectors, and the green chemistry market. An overview of advances in green extraction and sustainable processes will be a hot research topic. The entire value chain will be considered, from cultivation, extraction, processing, and recycling to applications: agrofood, nutraceuticals, perfume, cosmetics, chemicals, fuel, and energy. Based on the above, this Special Issue of *Antioxidants* will cover current research topics and welcomes research contributions that address these issues:

- **Alternative solvents for green extraction;**
- **Sustainable and clean extraction technologies;**
- **Innovative extraction process design;**
- **Valorization of by-products and biorefinery.**

Guest Editors

Dr. Marija Badanjak Sabolović

Dr. Jana Šic Žlabur

Prof. Dr. Mladen Brnčić

Prof. Dr. Francisco J. Barba

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Editor-in-Chief

Prof. Dr. Alessandra Napolitano

Department of Chemical Sciences, University of Naples “Federico II”,
Via Cintia 4, I-80126 Naples, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
