

Special Issue

Modulation of Oxidative Stress and Inflammation in the Cardio-Renal Axis

Message from the Guest Editor

We invite you to submit your latest research studies or a review article concerning the signaling pathways implicated in the modulation of inflammatory and redox processes that contribute to the development and progression of the main vascular pathologies that could be affected by kidney injury or vice versa (renal pathologies affecting cardiovascular system), as well as novel therapeutic strategies that could be applied in CRS. We believe that this Special Issue, "Modulation of oxidative stress and inflammation in the cardio-renal axis", will help to highlight the most recent advances in all aspects of meta-inflammation in the cardio-renal axis.

Guest Editor

Dr. Sandra Rayego-Mateos

Molecular and Cellular Biology in Renal and Vascular Pathology, IIS-Fundación Jiménez Díaz, Universidad Autónoma Madrid Faculty of Medicine, Madrid, Spain

Deadline for manuscript submissions

closed (15 November 2024)

About the Journal

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Editor-in-Chief

Prof. Dr. Alessandra Napolitano

Department of Chemical Sciences, University of Naples “Federico II”,
Via Cintia 4, I-80126 Naples, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
