

## Special Issue

# Oxidative Stress and Antioxidant Response in Insects

### Message from the Guest Editor

We are organizing a Special Issue entitled “Oxidative Stress and Antioxidant Response in Insects” in the journal *Antioxidants*. With your distinguished expertise in this area, we invite you to submit your latest research findings or a review article to this Special Issue, which will bring together current research concerning alterations of the oxidant/antioxidant balance in insects, contributing to the comprehension of the defense mechanisms of these organisms in response to environmental pollutants, mainly due to human activities.

## About the Journal

### Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Clinical Biochemistry)
