

## Special Issue

# Natural Antioxidants and Metabolic Diseases, 2nd Edition

### Message from the Guest Editors

Metabolic disorders—including diabetes, obesity, dyslipidemia, hypertension, and cardiovascular diseases—remain critical global health burdens; thus, the investigation of natural antioxidant compounds offers a promising perspective. These compounds, which are derived from food and vegetables sources, have demonstrated a range of biological effects, positioning themselves as potential therapeutic and preventive agents. The first edition of this Special Issue, entitled “Natural Antioxidants and Metabolic Diseases” ([https://www.mdpi.com/journal/antioxidants/special\\_issues/IG4O18I42Y](https://www.mdpi.com/journal/antioxidants/special_issues/IG4O18I42Y)), was a success, with 10 papers, both articles and reviews, published. Since then, this research field has experienced several advancements; thus, we cordially invite you to submit your valuable articles in the fields of food chemistry, nutrition, biochemistry, pharmacology, and the medical sciences to submit original research articles, clinical reports, and review articles. Your participation and contributions are crucial to enriching the body of knowledge and gaining new insights into this field.

### Guest Editors

Prof. Dr. José Ángel Rufián-Henares

Dr. Fortuna Iannuzzo

Dr. Elisabetta Schiano

Dr. Maria Maisto

### Deadline for manuscript submissions

10 April 2026

## About the Journal

### Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
