

Special Issue

Commemorative Issue of Antioxidants Dedicated to Peter Eckl

Message from the Guest Editors

This commemorative issue of *Antioxidants* aims at compiling recent progress in the still expanding field of oxidative stress and lipid peroxidation covering its manifold biological and medical implications as well as aspects of antioxidant defence. Submissions of previously unpublished manuscripts (original research or reviews) are welcome. Manuscripts will be published on an ongoing basis after being processed.

About the Journal

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.
