

Special Issue

Protection and Delivery Systems of Antioxidant Compounds: Principles and Technological Trends

Message from the Guest Editors

In this Special Issue on "Protection and Delivery Systems of Antioxidant Compounds: Principles and Technological Trends", we invite scientists from all over the world to submit research and review articles reporting on studies related to emerging extraction, preservation, and release technologies, as well as those on the bioavailability and bioaccessibility of antioxidant molecules from natural sources. These properties will enable the prediction of the behavior of these compounds regarding a process, product, or specific characteristic. The articles will be published online in *Antioxidants*.

Guest Editors

Prof. Dr. Charles Windson Isidoro Haminiuk

Prof. Dr. Luciana Igarashi-Mafra

Prof. Dr. Giselle Maria Maciel

Deadline for manuscript submissions

closed (20 December 2023)

About the Journal

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of “oxidative stress” a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Editor-in-Chief

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Chemistry, Medicinal) / CiteScore - Q1 (Food Science)
