

# Special Issue

## Feature Reviews for *Applied Biosciences*

### Message from the Guest Editor

This Special Issue will feature reviews of key areas and emerging areas of science that are likely to deliver critical technologies. Advances in biological research are generating new options for application in a wide range of areas. These applications may include novel diagnostic tools and technologies that help manage health, the environment, and food and energy production. This Special Issue will be a collection of critical reviews of important areas of bioscience that will be key references for researchers.

#### Author Benefits

##### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

##### High Visibility:

indexed within ESCI (Web of Science), Scopus, Embase, and other databases.

##### Journal Rank:

CiteScore - Q1 (Agricultural and Biological Sciences (miscellaneous))
