

Special Issue

Latest Perspectives and Reviews in *AppliedChem*

Message from the Guest Editor

This Special Issue aims to collect high-quality perspectives and reviews in all the fields of applied chemistry. We encourage researchers from related fields to contribute perspectives or review papers highlighting the latest developments in applied chemistry or to invite other relevant experts and colleagues to do so. Full-length comprehensive reviews are preferred.

About the Journal

Message from the Editor-in-Chief

Impactful chemistry often arises from the marriage of disparate chemical themes and fundamental concepts to focus on an important application and can feature collaborations across the sciences, industry, and beyond. This open access journal, *AppliedChem*, has been created to provide a new home for chemistry research that affords wide-ranging and substantive solutions to current and future global challenges. The broad scope of the journal will enable the best collaborative and targeted chemistry to be exhibited and new applications to be revealed.

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, CAPlus / SciFinder, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.5 days after submission; acceptance to publication is undertaken in 5.6 days (median values for papers published in this journal in the first half of 2025).
