Special Issue

Mathematical Perspectives on Quantum Computing and Communication

Message from the Guest Editors

We are pleased to invite you to submit your research for consideration in a Special Issue of Mathematics, focused on the latest advances in guantum information theory. The goal of this Special Issue is to showcase the latest research in this rapidly evolving field and to provide a platform for researchers to share their latest findings. Quantum information theory is a rapidly developing field, with new breakthroughs and discoveries being made on a regular basis. This Special Issue will provide a unique opportunity for researchers to share their work and to discuss the latest developments in the field. Topics of interest include but are not limited to entanglement, guantum algorithms, quantum error correction, quantum cryptography, quantum communication, quantum computing, quantum simulation, mathematical methods, numerical modeling, and guantum machine learning and the mathematical formalism of open quantum systems...

About the Journal

Message from the Editor-in-Chief

Mathematics permeates all kinds of academic worlds and is a fountain flowing with innovative development. The journal *AppliedMath*, publishing high-quality refereed papers discussing various aspects of applied mathematics, is dedicated to promoting the integration of mathematics with applied disciplines to cultivate a profitable frontier of mathematics. The journal highlights articles devoted to the mathematical treatment of questions and phenomena arising in physics, chemistry, biology, medicine, pharmacy, engineering, information science, social sciences, and humanities. One of the missions of this journal is to serve scientists by quickly announcing the seeds of significant mathematical breakthroughs in science and technology.

Editor-in-Chief

Prof. Dr. Takayuki Hibi

Department of Pure and Applied Mathematics, Graduate School of Information Science and Technology, Osaka University, 1-5 Yamadaoka, Suita 565-0871, Osaka, Japan

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 23.5 days after submission; acceptance to publication is undertaken in 6.9 days (median values for papers published in this journal in the first half of 2025).
