

## Special Issue

# Feature Review Papers in Applied Mechanics

### Message from the Guest Editors

This Special Issue is designed to publish high-quality review papers in the field of *Applied Mechanics*. It will highlight a diverse set of topics related to the mechanics of materials, structures, and systems across various engineering disciplines. The scope of this Special Issue includes, but is not limited to, solid and structural mechanics; fracture and damage mechanics; fatigue; contact mechanics; tribology; heat transfer in solids; biomechanics; and fluid mechanics. We are particularly interested in receiving manuscripts that review experimental and theoretical/computational studies, including mathematical and numerical modeling, with applications in civil, mechanical, and aerospace engineering.

### Guest Editors

Prof. Dr. Magd Abdel Wahab
