

Special Issue

Mechanical Properties of Epoxy Construction Materials

Message from the Guest Editor

The scope of this Special Issue is the dissemination of high-quality research carried out in the area of mechanical properties of epoxy construction materials, using epoxy composites, epoxy resin epoxy adhesives, modifications of epoxy construction materials, obtaining the mechanical properties adequate to various environmental conditions, and taking advantage of epoxy construction materials, in various branches of industry. This Special Issue also intends to disseminate research carried out in the modeling, simulation, and testing of epoxy construction materials considering different advanced tests methods. Both original research papers and review articles are welcome.

Guest Editor

Prof. Dr. Anna Rudawska

Department of Production Computerisation and Robotisation, Faculty of Mechanical Engineering, Lublin University of Technology,
Nadbystrzycka 36, 20-618 Lublin, Poland
