

Special Issue

Advances in Fundamentals and Application of Microbial Industrial Biotechnology

Message from the Guest Editors

This Special Issue is open to state-of-the-art and revolutionizing commentaries, research papers, and reviews. These are expected to highlight important and novel developments in the broad field of microbial industrial biotechnology. Importantly, contributions will not be restricted to synthetic biology and metabolic engineering of novel enzymes, pathways and microorganisms. The engineering of microbial cell factories and biotechnological processes—for a variety of applications—are also welcome. All contributions are expected to clearly contribute to the advancement of microbial industrial biotechnology for a sustainable biobased economy.

Guest Editors

Prof. Dr. J.H. de Winde

Department of Molecular Biotechnology, Institute for Biology, Leiden University, 2333 BE Leiden, The Netherlands

Prof. Dr. Arthur Ram

Institute of Biology Leiden, Microbial Sciences, Leiden University, Sylviusweg 72, 2333 BE Leiden, The Netherlands

About the Journal

Message from the Editor-in-Chief

Applied Microbiology (ISSN 2673-8007) is a peer-reviewed open access journal that provides an advanced forum for the international community to report and discuss established and emerging applications for microorganisms and their associated technologies. Research articles, reviews, and other publications are released online immediately after acceptance to provide timely unlimited free access to the scientific community and the general public. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Ian Connerton

Division of Microbiology, Brewing and Biotechnology, University of Nottingham, Loughborough LE12 5RD, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, EBSCO, Embase, and other databases.

Journal Rank:

CiteScore - Q2 (Biochemistry, Genetics and Molecular Biology (miscellaneous))
