

## Topical Collection

# Feature Papers for Applied Nano

### Message from the Collection Editor

The scope of this Special Issue is to show how the use of the nanotechnology tool kit offers opportunities and provides solutions to challenges involving a wide range of disciplines. The goal is to gather a large set of articles, in order to spotlight nanotechnology-based systems applied to the chemical, physical, pharmaceutical, biomedical, and environmental fields. It could include, for example, water sciences, material sciences, cultural heritage, energy storage and conversion, antibacterial applications, green nanochemistry, electronics and photonics, sensing systems, and theranostics. We strongly encourage both Editorial Board Members and young investigators to join this Special Issue, but more generally, we invite researchers and practitioners from all areas of nanotechnology and nanochemistry to submit manuscripts for this fundamental and exciting Special Issue of *Applied Nano*. We welcome both original research papers and review papers on diverse relevant topics.

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Angelo Maria Taglietti  
Department of Chemistry, University of Pavia, I-27100 Pavia, Italy

---

#### Author Benefits

##### High Visibility:

indexed within Scopus and other databases.

##### Journal Rank:

CiteScore - Q2 (Materials Science (miscellaneous))

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 4.2 days (median values for papers published in this journal in the first half of 2025).
