submissions:

closed (20 September 2025)

Message from the Guest Editor

Dear Colleagues,

Occupational and environmental medicine plays a critical role in safeguarding the health and well-being of workers and communities.

The contributions to this Special Issue will offer insights into real-world solutions, bridging the gap between scientific knowledge and its implementation in occupational and environmental settings. Through collaborative efforts, we aim to advance the field and promote healthier, safer workplaces and communities worldwide.

The proposed topics for this Special Issue include, but are not limited to, the following:

- Novel approaches to occupational hazard assessment;
- Emerging environmental health risks in the workplace;
- Technological innovations for occupational safety and health;
- Occupational health interventions in challenging work environments;
- Environmental exposures and chronic disease prevention;
- Occupational health policy and regulation: bridging science and practice.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
