

## Sustainable Urban Mobility

Guest Editors:

**Prof. Dr. Mihaela Popa**

**Prof. Dr. Șerban Raicu**

**Prof. Dr. Dorinela Costescu**

**Dr. Grzegorz Karoń**

Deadline for manuscript  
submissions:

**closed (20 December 2025)**

### Message from the Guest Editors

In essence, mobility is the expression of the form and structure of activities and the way of life within an urban system. For the mobility of individuals, the essential component of ensuring mobility rights is represented by public transportation. For goods mobility, sustainable urban distribution logistics still present challenges for research.

We find mobility in the quality of life of the city's inhabitants and their desire for a higher common good. That is why we want the sustainable urban mobility theme that we propose to reflect an integrative treatment of mobility, connected to the requirements of sustainable development. Consequently, we invite engineers, computer scientists, urban planners, sociologists, economists, geographers, ecologists, statisticians, and anyone else who is interested in the correct, integrative, and systemic promotion of sustainable urban mobility to participate in the development of the theme.

### Keywords

- urban mobility
- public transportation
- integrated urban mobility networks
- smart mobility
- modeling of urban mobility
- sustainable city logistics

an Open Access Journal by MDPI

## Editor-in-Chief

Dipartimento di Fisica,  
Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
