Communications, Higher
Polytechnic School, Universidad
de Alcalá de Henares, Ctra.
Madrid-Barcelona, Km. 33,600,
28805 Alcala de Henares, Spain

Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editor

Artificial intelligence (AI) has become a common term in daily life, and its applications are becoming more frequently used in medicine in general and dentistry in particular to help medical decision-making processes and nonspecialists obtain expert-level information.

Currently, AI is rapidly advancing beyond image-based dental practice, and the role of AI in dentistry will be greatly expanded.

Keywords

- artificial intelligence
- decision-making
- dentistry
- machine learning
- neural networks

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
