Deadline for manuscript
submissions:

closed (20 April 2024)

Message from the Guest Editor

We invite you to contribute to the Special Issue on "Advanced Composite and Hybrid Materials".

The aim is to collate researchers and experts in the field of composite materials, showcasing their latest findings and advancements. We aim to create a comprehensive collection of articles encompassing the diverse aspects of advanced composite and hybrid materials, bridging the gap between theory and application and fostering a deeper understanding of these materials and their potential across various industries.

In this Special Issue, we welcome original research articles and reviews. Research areas may include (but are not limited to) the following:

- Phase-field models of composite materials, including metal–matrix composites;
- Structural analyses of composite laminates and sandwiches;
- Composites in MEMS and NEMS;
- Nonlocal analysis of composites;
- Experimental analysis of composites at different scales, from nano to large scales;
- Innovative fabrication techniques for advanced composites;
- Multiscale modeling and simulation of composite materials;
- Characterization and testing of hybrid materials;
- Sustainable composite materials.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
