

Advanced Materials and Technologies for Modified Drug Release Systems

Guest Editors:

Prof. Dr. Rosario Pignatello

Department of Drug and Health Sciences, University of Catania, 95123 Catania, Italy

Prof. Dr. Cinzia Anna Ventura

Department of Chemical, Biological, Pharmaceutical and Environmental Sciences, University of Messina, Messina, Italy

Deadline for manuscript submissions:

closed (30 August 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Applied Sciences* on “Advanced Materials and Technologies for Modified Drug Release Systems” wishes to embrace the multidisciplinary field of innovative drug release and targeting formulations, to present more recent advances in their design, physicochemical and technological characterization—with particular focus on stability issues— and in vitro/ex vivo/in vivo biological assessment. Colleagues are invited to contribute original research, communications and highly focused review papers concerning new (bio)materials, approaches, and production technologies aimed at preparing modified drug release systems for the pharmaceutical, biotechnological, and biomedical fields, regarding both ‘conventional’ routes of administration and innovative therapeutic strategies.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
