Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editor

Dear Colleagues,

Medical imaging is an ever-developing and increasingly important topic in research. Given that there are constant novel developments, small and large, it is our main focus to keep track of such inventions. Furthermore, novel methods need applications to prove their efficacy and potential superiority compared to currently used methods. The methods however not only benefit research, but also patient care, sustainability and environmental issue, e.g., less energy consumption compared to traditional methods. This topical collection thus aims to focus on novel developments in medical imaging with focus on radiology to present to the audience.

Keywords:

- radiology
- magnetic resonance
- computer tomography
- ultrasound
- neuroradiology

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
