Optical Materials, Structures, and Devices

Guest Editor:

Dr. Marilou Cadatal Raduban
School of Natural (SNS), Massey University Albany, Auckland 0632, New Zealand

Deadline for manuscript submissions:
30 October 2024

Message from the Guest Editor

This Special Issue aims to publish new experimental and theoretical results as well as concise reviews relating to the broad field of optical materials, structures, and devices. The topics are not limited strictly to fundamental research. We also strongly encourage the submission of manuscripts focusing on the practical applications of optical materials, structures, and devices, including, but not limited to, lasers, optical sensors, scintillators, photovoltaics, light-emitting devices, phosphors, nanomaterials, thin films, and other related topics.

Special Issue

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
