New Insights on Environmentally Friendly Materials

Guest Editors:

Dr. Ziwei Chen

Department of Civil and Environmental Engineering, The Hong Kong Polytechnic University, Hong Kong, China

Dr. Ru Ji

School of Civil and Resources Engineering, University of Science and Technology Beijing, Beijing, China

Dr. Hao Wang

School of Energy and Environmental Engineering, University of Science and Technology, Beijing, China

Deadline for manuscript submissions:

10 July 2024

Message from the Guest Editors

Dear Colleagues,

We are inviting submissions to this Special Issue on New Insights on Environmentally Friendly Materials. Topics of interest include, but are not limited to, the following:

- Phase-change energy storage materials for secondary energy recovery;
- Utilization of industrial and municipal solid waste in building materials;
- Advanced materials for treatment of waste liquids and exhaust gases;
- Bio-based materials for environmental applications;
- Atomic-scale design of environmentally friendly materials;
- Applications of machine learning in environmentally friendly materials;
- Thermodynamics, first-principles calculations, and molecular dynamics simulations.

For more information on the Special Issue, please visit LINK

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
