### Message from the Guest Editors

Dear Colleagues,

We are pleased to announce the first edition of the Special Issue on “Feature Review Papers in Section Acoustics and Vibrations”. The Special Issue aims to collect review papers of particular interest in the topics related to the section Acoustics and Vibrations.

We are glad to encourage the submission of high-quality review papers on Acoustics and Vibrations that deal with theoretical methods and/or experimental and numerical applications. An interdisciplinary approach is also encouraged.

- acoustics
- vibration
- environmental acoustics
- room acoustics
- aeroacoustics
- vibration and sound measurement
- vibration and sound signal processing
- noise control
- predictive models

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
