

Application of Machine Learning in Data Analysis and Process

Guest Editor:

Dr. Kenan Matawie

School of Computer Data and
Mathematical Sciences, Western
Sydney University, Penrith, NSW,
Australia

Deadline for manuscript
submissions:

closed (30 November 2023)

Message from the Guest Editor

ML techniques, including predictive analytics, anomaly detection, natural language processing, image analysis, recommendation systems, and process optimization, offer valuable capabilities that complement traditional statistical modeling approaches. The integration of ML with data analysis and processing offers a powerful approach to extract insights, make accurate predictions, and optimize processes. The continuous advancement of ML holds immense potential for unlocking deeper insights, driving data-driven decision making, and addressing the challenges posed by complex and ever-growing datasets.

Keywords

machine learning; data analysis; data processing; predictive analytics; anomaly detection; natural language processing; image analysis; recommendation systems; process optimization; statistical modeling

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
