## Advanced Active and Passive Metasurfaces

Guest Editors:

**Prof. Dr. Shah Nawaz Burokur**
LEME, UPL, Université Paris
Nanterre, F92410 Ville d'Avray,
France

**Prof. Dr. Oscar Quevedo-Teruel**
KTH Royal Institute of
Technology

Deadline for manuscript
submissions:
**closed (31 December 2019)**

### Message from the Guest Editors

This Special Issue on "Advanced Active and Passive Metasurfaces" in the journal Applied Sciences is aimed to summarize the recent advances in the development of active and passive metasurfaces and their related applications in the different fields of physics and engineering. The scope includes theoretical, computational and experimental contributions ranging from fundamental research to new designs and ideas for the development of advanced and functional applications of the metasurface concept. Topics of interest include but are not limited to:

- metasurface
- antennas
- lenses
- OAM
- surface
- plasmons
- non-reciprocity
- holography

# Special Issue

## Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo**
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.
**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.
**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering )
