Deadline for manuscript
submissions:

15 October 2021

Message from the Guest Editor

The Special Issue aims to collect recent innovative research on augmented reality in smart factories. Scientific contributions, ranging from basic research to applied research with pilot industrial applications and demos, are welcome.

- augmented reality
- virtual reality
- mixed reality
- smart factory
- intelligent manufacturing
- cyber-physical systems
- Industry 4.0
- Internet of Things
- industrial digitalisation
- smart manufacturing
