Message from the Guest Editors

This Special Issue intends to present recent developments in functional food and nutraceutical research, including studies regarding underexplored or new functional compounds, such as innovative food products or nutraceuticals developed to deliver bioactive compounds. Submissions of current advances in delivery systems of functional compounds that could increase their bioavailability and/or bioaccessibility, a drawback often associated with nutraceuticals, are also welcomed, as well as other new technologies or methodologies applied to the development of functional foods or nutraceuticals, including extraction processes of bioactive compounds.

Deadline for manuscript
submissions:

10 October 2024

an Open Access Journal by MDPI

Editor-in-Chief

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
