Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to collect high-quality review papers from the fields of civil engineering research. We encourage researchers from various fields within the journal's scope to contribute review papers highlighting the latest developments in their research fields, or to invite relevant experts and colleagues to do so. Topics of interest for this Special Issue include, but are not limited to, the following:

- Structural engineering
- Transportation engineering
- Environmental engineering
- Highway engineering
- Hydraulic engineering
- Geotechnical engineering

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
