Deadline for manuscript
submissions:

closed (30 December 2019)

Message from the Guest Editor

Dear Colleagues,

We are organizing a Special Issue on “Ionic Liquids (ILs) in Green Chemistry”. The purpose of this Special Issue is to describe the use of classical or innovative ionic liquids in various chemical reactions or processes. This may involve organic and organometallic reactions in combination with ILs, as well as biocatalyzed processes. Contributions regarding biodegradable ILs will be also appreciated. Other important areas we wish to present are the extraction of natural products which could also be bioactive, and biomass dissolution or defragmentation. Any accounts of the (eco)toxicity and biodegradability of ILs in green processes will also be greatly appreciated.

Considering your recognized expertise in this field, it will be an honor to receive your contribution to this Special Issue.

Prof. Sandrine Bouquillon

Guest Editor

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
