Dear Colleagues,

We are inviting submissions to the Special Issue entitled "Clinical Dentistry, Dental Diseases and Dental Materials: Latest Advances and Prospects".

For this Special Issue, we would like you to submit projects, studies, and research which contribute to improving our understanding of behavior and evolution and help to establish and improve therapeutic protocols for pathologies and diseases of hard and soft tissues in the oral cavity. Studies that test and study materials or tools that are useful in the diagnosis and therapy of the most varied pathologies of the oral cavity are in high demand.

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.
