# **Noise Barriers**

Guest Editors:

#### Prof. Dr. Marek Pawełczyk

Silesian University of Technology, Department of Measurements and Control Systems, Akademicka 16, 44-100 Gliwice, Poland

#### Dr. Jordan Cheer

Institute of Sound and Vibration Research, University of Southampton, Southampton, UK

Prof. Dr. Nicolaas Bernardus Roozen KU Leuven

Deadline for manuscript submissions: closed (31 July 2020)

### **Message from the Guest Editors**

It is our great pleasure to invite you to contribute to this special issue by presenting your results on acoustic noise barriers. The main concern is to protect humans from excessive noise, which may impair the hearing system or may impede concentration and rest. The papers can focus on structural noise control, for instance vibrating panels or full device casings designed to improve passive isolation. Energy of the panels due to acoustic excitation can also be dissipated in a semi-active circuit or they can be forced to vibrate in order to reduce the transmitted noise. Works on the generation of virtual barriers like acoustic curtains are welcome. Techniques for improving the acoustic climate in enclosures are also appreciated. The papers can present modeling, optimization, control, measurements, analysis, and applications.

Keywords:

- active structural acoustic control
- passive control
- semi-active and active control
- virtual barriers
- device noise control

### Message from the Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo** Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

# **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec,

CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
