Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality review papers in the fields of mechanical engineering. We encourage researchers to highlighting the latest developments in their research field, or to invite relevant experts or colleagues to do so. Topics of interest include, but are not limited to:

- Mechanism and machine design;
- Electromechanical integration and automation;
- Mechanical control and equipment;
- Manufacturing science and technology;
- Instrument science and technology;
- Material science and engineering;
- Transportation engineering;
- Thermodynamics;
- Fluid mechanics;
- Reliability engineering;
- Industrial engineering.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
