Message from the Guest Editor

Dear Colleagues,

This Special Issue is focused on the advancement of therapies relating to Endodontics and Dental Restorations and Implants, and solicits manuscripts, reviews and commentaries on root canal anatomy, endodontic biomaterials, regenerative endodontics, implant materials, implant design, surface treatment, medical images, coatings, and even clinical surgical methods related to implant dentistry.

Potential topics include, but are not limited to, the following:

- Dental materials;
- Modified adhesives;
- Bioactive materials;
- Dental composites;
- Endodontics;
- Mineral trioxide aggregate;
- Nanotechnology;
- Regenerative endodontics procedures;
- Revascularization/revitalization.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
