Message from the Guest Editor

Dear Colleagues,

We are excited to invite you to contribute to this Special Issue of *Applied Science* entitled “Quantified Assessment of Gait and Motor Function in Parkinson Disease”. The aim of this Special Issue is to collect the most up-to-date information about the objective evaluation of gait and balance impairment by means of biosensors (IMUs, etc.) in patients with Parkinson disease. We will accept full-length research articles and reviews focused on this research topic. We look forward to seeing new ideas and producing many networking opportunities.

Dr. Simon Israeli-Korn

Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
