Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to advance research on concrete properties using recycled materials and industrial byproducts, taking into account factors such as new recycled materials and industrial byproducts, properties of recycled materials and industrial byproducts, factory processing, and various processes. It also includes the environmental impact characteristics and evaluation of concrete to which recycled materials and industrial byproducts are applied.

The main theme included in this Special Issue is the following:

- Byproduct materials for concrete;
- Recycled materials for concrete;
- Recycled aggregate for concrete;
- Recycling processes for recycled materials;
- Fiber-reinforced concrete using recycled materials;
- Supplementary cementitious material;

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
