### Message from the Guest Editor

Dear Colleagues,

The "International Conference On Advances in Biological Science and Technology" (ICABST2021) will be held during September 28–30, 2021 as an online video conference. The conference, which is organized by Asia-Pacific Association of Natural Science and Engineering (APANSE), and co-organized by Hanoi National University of Education, Mahidol University, has been designed to provide an extensive platform for scientists, researchers and scholars to present their research results and newest findings in all fields of biological science and technology, especially in biotechnology and bioengineering, biomedical engineering, clinical medicine, biopharmaceuticals and pharmacology, animal and plant sciences and other related topics. More information about the conference can be found at <https://icabst.apanse.com/>. Participants of the conference are cordially invited to contribute original research papers or reviews to this Special Issue of Applied Science.

This Special Issue welcomes submission of previously unpublished manuscripts from original work on all aspects of biological science and technology.

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
