Message from the Guest Editor

Dear Colleagues,

In recent years, significant progress has been achieved in the diagnosis and treatment of oral diseases. The management objectives of oral diseases have become more directed toward prevention and early diagnosis. In addition, the minimally invasive approach using all available methods has become a favorable approach to raise the quality of life and to maintain the maximum respect of our patients. The topic of interest of this Special Issue is all valid updates on the prevention, diagnosis, and treatment of oral diseases for both dentoperiodontal and osteomucosal structures.

The topics of interest of this Special Issue include valid updates on (but not limited to) the management of:

Oral cancer patients;
Oral potentially malignant disorders;
Medication-related osteonecrosis of the jaws;
Patients undergoing radio- and chemotherapy;
Medically compromised patients;
Oral infections;
Patients with special needs;
New technologies for oral health.

All original articles, case reports, and review articles are welcome for submission.

Dr. Gianluca Tenore
Guest Editor

Special Issue

an Open Access Journal by MDPI

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
