Advances in Intelligent Systems

Guest Editors:

Prof. Dr. Zong Woo Geem

Prof. Dr. Seokwon Yeom

Prof. Dr. Euntai Kim

Prof. Dr. Myung-Geun Chun

Prof. Dr. Young-Jae Ryoo

Deadline for manuscript submissions:
closed (30 April 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Issue invites state-of-the-art research in intelligent systems. It will also include selected papers from the conference of the 22nd International Symposium on Advanced Intelligent Systems (ISIS 2021, http://isis2021.org/), which will be held at CheongJu, South Korea on 15–18 December 2021. The topics of the contributed papers will include various intelligent techniques and their real-world applications.

Keywords

- computational intelligence
- machine learning
- fuzzy logic and reasoning
- evolutionary algorithms
- soft computing
- data mining
- big data analysis
- probabilistic models and inference
- robotics
- image processing
- (bio)medical applications

Special Issue

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
