

Synthesis and Characterization of Nanoparticles Volume II: Organic Aspects

Guest Editors:

Dr. Pietro Calandra

CNR-ISMN, National Research Council, Institute for the Study of Nanostructured Materials, Via Salaria km 29.300, 00015 Monterotondo Stazione (RM), Italy

Dr. Domenico Lombardo

Consiglio Nazionale delle Ricerche, Istituto Processi Chimico-Fisici, (CNR-IPCF), 98158 Messina, Italy

Deadline for manuscript submissions:

closed (31 December 2021)

Message from the Guest Editors

This Special Issue will be to point out the progresses on the organic-based nanoparticles from the experimental point of view as well as from the theoretical one, including computational aspects and modeling. Potential topics therefore include (but are not limited to):

- Structural characterizations
- Magnetic behavior
- Core-shell organic nanostructures
- Computational structure optimization
- structure-properties relationships
- New applications
- New Methods for synthesis and characterization of nanoparticles
- Emerging field of organic nanoparticles
- Surface functionalization
- Hybrid nanoparticles
- Properties of interfaces between different materials
- Drug and gene delivery
- Organic Nanocompartments for biomedical applications
- Inter-molecular self-assembly
- Soft nanoparticles
- Dendrimers

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
