### Message from the Guest Editors

Dear Colleagues,

We would like to draw your attention to our upcoming Special Issue on “**New Trends in Organic Solar Cells**”, which will be published in *Applied Sciences*, (ISSN 2076-3417; CODEN: ASPCC7, IF-2.474, <https://www.mdpi.com/journal/applsci>), an international peer-reviewed open-access journal by MDPI. Professor Sadia Ameen and Professor Hyung-Shik Shin are serving as Guest Editors for this issue. The purpose of this Special Issue is to solicit original contributions and publish recent advances in organic solar cells. Based on your professional knowledge, we believe that you could make an excellent contribution to this Special Issue. Since you are an expert in the field, we sincerely invite you to submit related papers to us.

The deadline for this submission is 20 June 2021. However, we encourage you to submit your work as soon as it is ready. Please note that all submitted articles will undergo peer review.

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
