Roma, Regina Elena 295, 00161  
Roma, Italy

Deadline for manuscript  
submissions:

**closed (15 December 2021)**

### Message from the Guest Editors

Dear Colleagues,

Social network analysis (SNA) is a research area of computer science whose purpose is to represent people and their social interactions as graphs and then analyze these graphs using network and graph theory. SNA research is highly interdisciplinary: the best results have been obtained thanks to the collaboration with scientists from other disciplines, such as, for example, sociology, psychology, medicine, and management theory, among others. The objective of this Special Issue is to collect contributions centered on innovative algorithms in the field of computer science and network theory that are clearly linked to contributions from other disciplines.

Prof. Dr. Paola Velardi

Dr. Stefano Faralli

## Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo**  
Dipartimento di Fisica,  
Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
